Tobi's Toys

Giving back to the Community

What do we do?

Tobi's Toys is an ongoing project started during 4085's 2016/2017 season. We take gently used toys that that move, light up, or make sound, that are donated and modify them for children with disabilities. We do this by opening the toy and rewiring it to add a large button for the child to press. We are partnered with the TABS program at Ohio State University which modifies toys as well. Although toy companies already make modified toys, they charge almost 3 times the amount of the unmodified toy. This is one of the many ways we give back to our community!
